SKILLS

Programming Languages

</> `JavaScript ES6` `TypeScript` `Python` `Java` `C`

Web Technologies

</> `Angular v16` `React` `Node.js` `Express` `REST API` `SpringBoot` `Fastify` `Django`

Data analyst

</> `MongoDB / non relational DB` `ETL` `PostgreSQL  SQL DB` `Power BI`
Technologies

</> `Postman` `Adobe Suites` `Networking and Server management` `CD/CI` `Docker` `Linux` `Data Processing`

Trading and Finance

</> `Metatrader` `IBKR API` `ProReal time` `Easy Language` `Advanced Knowledge about Financial Futures and Options`

Courses

</> `Adobe CC` `Google` `Java`

- Adobe Photoshop ↗ Advanced Espero [Milan 2017]
- Full Stack ↗ : Angular and Java Spring Boot E-Commerce Website [Udemy 2020]
- Angular Fundamentals ↗ : Created by Google Expert [Online 2023]

- Angular Evolution ⧉ : Created by Google Expert [Online 2024]
- Foundations: Data, Data, Everywhere ⧉ : This course is part of Google Data Analytics Professional Certificate [Coursera 2023]

Committed to ongoing skill development through relevant courses, open to travel for learning, actively seeking a highly skilled Lead Tech for mentorship and gaining valuable experience.

SIDE PROJECTS AND HOBBY

Home Automation   **Domotic and Energy Optimization**

`</>` HomeAssistant | Coding | Networking | Docker   ○ homeAutomation

Personal website in Angular and Fastify   **Full stack web app**

`</>` Angular v17 | TypeScript | Fastify | Pocketbase and SQL | Bootstrap and Material UI | Git   ○ kitoAi

Spreadsheet maniac   **Side Projects**

`</>` Excel | Google Spreadsheet | Google API | STEM | Python and Scripts | OS admin   ○ spreadsheetManiac

From a young age, I've enjoyed solving real-world problems using spreadsheets in first order and with some coding, showcasing my skills in various projects:
- I compiled a detailed report on Solar Production ⧉ and weather data for my home since 2011.
- Developed a range of calculators, from simple converters to more complex tools complex tools ⧉
- Since 2019, I have systematically track my financial investments, income and expenses, and my net worth.
- A lot of Arduino ⧉ projects

DJ and electronic music enthusiast   **WakeUp**

`</>` FL Studio | Rekordbox | Audio / Video

Played in various local venues and festivals in the area. From 2015 to 2018, self organized with few friends more than 30 musical events in my region under the brand WakeUp.
